 - Control
 - Wolfenstein: Young Blood
 - Halo on PC?!?!?!?!?!?
- 

Reflection

- I think the games I played the most have some sort of grinding aspect because I enjoy getting that thing that only a few players get. I just finished grinding Redrix's Broadsword in Destiny 2.
 - I do enjoy narrative games that have some deeper story line.
 - The Mass Effect series will always be my favorite games, especially the second one.
